

British Steel by Andy “Dijon” French

Based on *Living After Midnight* by Judas Priest

EE D AAA BBB
EE D AA B
EE D AAA AA-B B

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn

E G E G E
Took a crate to Port Talbot in Wales, loaded, loaded
E
With iron ore and scrap, such as cars and nails
G E G E
corroded, corroded
G
In melted metal, Bessemer blew air
F# B
Now we use O2 to reduce the carbon-there

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn

E G E G E
In a blast furnace we combust with ease, it's loaded, loaded
E
With nickel, chromium or manganese,
G E G E
it's loaded, not exploded
G
I'll make a strong, stainless kitchen tool
F# B
Or the super-structure of a swimming pool ... But

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn

A/ Asus4 A/Asus4
E G E
I'm not brass or bronze yeah
A/ Asus4 A/Asus4
E G E
Not- the-same as iron cast
A/ Asus4 A/Asus4
E G E
For steel you must control the carbon
A/ Asus4 A/Asus4
B D B
Or it becomes too brittle

Solo over:

EE D AAA BBB
EE D AA B
EE D AAA AA-B B

E G E G E
Electric-arc furnace recycles scrap, it's loaded, loaded
E
With a vintage bike and a bathroom tap
G E G E
Outmoded, outmoded
G
Reduce the pollution and the CO2
F# B
While keeping jobs in Britian too, (so)

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn

E E D A BB
Make steel using lignite,
E E D A BB
It's green coal, though it's brown
E E D A B
Remove all the moisture, then burn, and burn
